## 2. Прочитайте текст и выполните задания после текста:

When he was a teenager, Hunter Adams was very unhappy, and he spent many years in a special hospital for people with mental health problems.

When he left hospital, Hunter decided to become a doctor, so he went to study medicine. But when he was there, he did things in a different way. For example, he didn't like the doctors' white coats, so he wore shirts with flowers on them when he visited his patients, and he tried to make them laugh. The doctors at the medical school didn't like Hunter very much because he was too different.

But Adams believed that people in hospital need more than medicine. He saw unhappy and lonely people, and he tried to help them as patients, but as people too. He spent a lot of time with children in the hospital, and often put a special red nose on his face to look like a clown and to make the children laugh.

When he finished medicine and became a doctor, Adams opened his own hospital, called "The Gesundheit Institute", together with some other doctors. They wanted it to be a place with a different way of working with sick people.

Hunter Adams became famous during the 1980s, and in 1998, Universal Pictures made a film about his life. It was very successful. In the film (called Patch Adams), Robin Williams played Adams. Williams said, "Hunter is a really warm person, who believes that patients need a doctor who's a friend. I enjoyed playing him".
